ABDULLAH FOUZE

Senior Projects & Facilities Leader

Capital Projects · Maintenance Operations · Multi-Site Portfolios

Jeddah, Saudi Arabia

PROFESSIONAL SNAPSHOT

14+	170+	81	99%
Years in Projects & Facilities	Live Retail Sites Managed Today	Store Openings FY24–FY25	PM Compliance via Custom CAFM

Senior projects, facilities and engineering leader with 14+ years directing multi-site maintenance operations, retail expansion, construction, fit-out and technical teams across Saudi Arabia. Currently leads projects and maintenance across 170+ live retail sites, combining full ownership of budgeting and contractor strategy with hands-on delivery.

CAREER NARRATIVE

Foundation

Began in quality assurance and large-scale construction on landmark projects including the 22,000 m² façade at KAPSARC and a SAR 153M tower at KAFD.

Fit-Out Leadership

Led corporate fit-out programmes exceeding SR 55M for clients including KPMG, SNB (Samba), Noon and Adaa, managing multidisciplinary teams of 23.

Multi-Site Facilities

Took full accountability for engineering and facilities across a 42-site portfolio (38 distribution centres) with SR 65M+ combined OPEX/CAPEX at NADEC.

Retail at Scale

Now directing projects and maintenance for 170+ live retail sites, delivering 81 openings at 96%+ on-schedule while building internal systems that raised PM compliance to 99%.

2012–2013	**QA/QC Engineer**	ANC Contracting · SR 153M Tower · KAFD

RECENT LEADERSHIP

DUKAN RETAILING

Head of Projects & Maintenance

Jan 2025 – Present

- 170+ live retail sites across five cities
- 21-person team + 6 external contractors
- SR 38M annual project portfolio
- Custom CAFM: 85% → 99% PM compliance
- 29 openings in FY25 at 97% on-schedule

OTHAIM MARKETS

Senior Project Manager, Renovations

Sep 2022 – Nov 2023

- SR 47M+ Corporate Mall / Head Office
- 18,000 m² HO + 4,000 m² offices + 10,000 m² F&B
- End-to-end ownership to final account
- Delivered in 120 days, under budget
- Full contractor & consultant coordination

NADEC

Senior Facility Manager

Sep 2019 – Aug 2022

- 42-site portfolio (38 distribution centres)
- SR 50M+ OPEX + SR 15M+ CAPEX
- Four functions: maintenance, security, catering, hygiene
- 100% on-time PM completion
- In-house maintenance application built

APPROACH & OPERATING STYLE

Standardise then scale

Fixed-price contractor frameworks that remove repeated tender cycles and lock quality, cost and readiness before the fiscal year begins.

Speed without compromise

Fit-out cycle cut from 25 to 12 days while protecting standards, handover quality and brand consistency across the network.

Build the system

Designed and deployed a custom CAFM platform (no formal coding background) that lifted PM compliance from 85% to 99% and halved work-order closure time.

Own the full chain

From site receiving and CAPEX approval through tender, execution, commissioning, handover and final account — single point of accountability.

Data over noise

KPI-driven performance management, real-time work-order visibility, and clear escalation paths across 170+ sites and multiple cities.

Partner, don't police

Long-term contractor relationships with shared commercial terms, readiness and performance expectations rather than adversarial day-rate models.

INDUSTRIES, SYSTEMS & CREDENTIALS

INDUSTRIES & PROJECT TYPES

- Multi-site retail expansion & fit-out
- Corporate head-office renovations
- Distribution & industrial facilities
- Landmark construction (KAPSARC façade)
- MEP-intensive commercial interiors

TECHNICAL SYSTEMS

- HVAC package & VRF systems
- Refrigeration & cold rooms
- Fire alarm & firefighting
- Backup generators & BMS
- CAFM / CMMS platforms

EDUCATION & AFFILIATIONS

B.Sc. Materials Engineering — University of Moratuwa, Sri Lanka (2012), applied throughout to materials compliance, quality assurance and capital project delivery.

Saudi Council of Engineers · Institute of Engineers, Sri Lanka

English (Fluent) · Arabic (Conversational) · Valid Iqama

09

WHAT I BRING

01

Rapid multi-site retail rollout

Proven ability to open dozens of stores per year at 96%+ on-schedule while protecting quality and brand standards.

02

Facilities systems that actually move the needle

Custom CAFM that raised PM compliance to 99% and cut closure time in half — designed and deployed without a formal coding background.

03

End-to-end capital project ownership

From scope and budget through tender, execution, commissioning and final account on programmes up to SR 47M+.

04

Commercial discipline at scale

Fixed-price frameworks, cost variance reduction, and consistent budget savings across expansion portfolios.

05

Cross-functional leadership under pressure

Direct report to CEO, management of 21 internal staff plus external contractors across five cities.
